**Description:** ■ GOLDEN JACK forms a metamorphosis from the flag of a country and the events which occurred in the course of history. It is a brilliant reflection of a nation in the growth worldwide community, which has grown from countries many nations. By replacing the white base with the 24-carat gold-plated surfaces results in a shift of the color space and provides a visual stimulus to stimulate the eye. The new composition of the colors gives the overall image a altered perception, so that one past events of a modified waiting considered and this results in a different rating.
